Battlax Adventurecross Scrambler AX41S contributes to your lifestyle

The Battlax Adventurecross Scrambler AX41S is Bridgestone's new concept. AX41S is making attitude, fashion, design and performance complementary.

A lot of research inside the scrambler and 'café racer' world has brought so many design ideas. The AX41S is the outcome of hours behind the drawing table.

AX41S adopts the latest technologies in terms of compounding, a directly derivate from Bridgestone's Sport-Touring category, to ensure the necessary road performances.

AX41S provides the perfect match for both a custom build thanks to its design, and for the rider through its performance.

Bridgestone's Battlax Adventurecross Scrambler AX41S is the tyre taking care of the final look of your bike.

Product concept

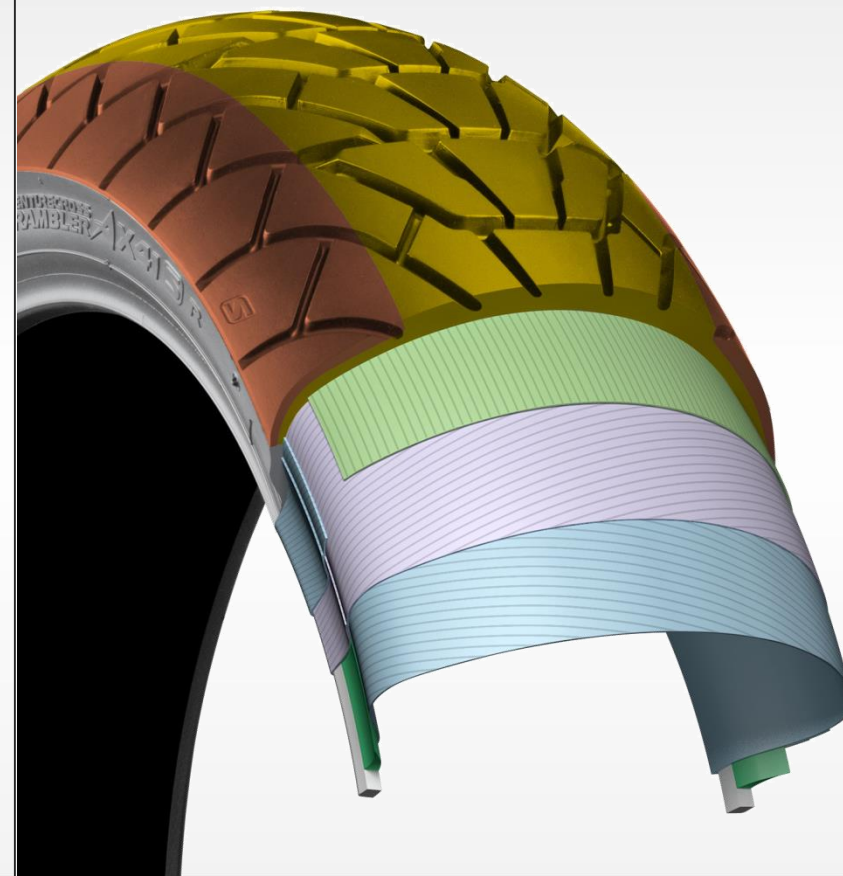

Offer to a wide range of motorcycle the possibility to upgrade the final looks of the bike in line with the café racer and scrambler mindset without sacrificing the pleasure to ride.

Technical aims

- Design
- Maximize the corresponding grip in dry
- Safe wet performance

Methodology

- Pattern design and block positioning for matching lifestyle oriented bikes
- Groove positioning for water drainage
- Single sport-touring compound for well balanced grip on the front
- Applying sport-touring compound in 3LC configuration on the rear

Pattern Design

Mixing fluent line tracing and blocky robust pattern is the idea behind the pattern design of AX41S.

In order to match a wide range of café racer and scrambler bikes, a tiny touch of adventure recognition was added to the flowing grooves.

The design takes also performance into account avoiding high heel and toe wear or other irregular wear.

Compounding

AX41S has been developed in order to be used on the road. Not only to match a nice custom build motorcycle in a show-room.

AX41S adopts a single sport-touring compound on the front and a sport-touring compound in 3LC configuration on the rear.

Ensuring this way the necessary wet and dry grip levels for a secure ride on any café racer or scrambler bike.

Benefits

- *Nice looking*
- *Matching café racer and scrambler owner's lifestyle*
- *Ensuring necessary Wet and Dry performance*
